SHORT ANSWER

How does each region adapt to their environment?

- SW Pueblo's thick walls to keep cool/warm
- SW Irrigation System to water crops without wasting water in desert
- NW using clothes to be cool/warm,

Name: _____

- EW- Using their forests to create homes, tools, and canoes out of wood
- Great plains travel with the buffalo for a food source

How are the Iroquois different than the other regions? (Think women, property, and government)

Women/Property - Women own land and homes. Men ask women for visitors

Family structure- Men move in with the women's family.

Government - Women help run the government. They created the Iroquois Confederacy for peace. -

Compare and contrast the Northwest and Southwest climate, homes, food, art, and religion

Homes NW Wooden Plank Houses SW Pueblo

Food - NW - Whale, Salmon, shellfish SW- Corn

Art- NW totem Poles SW Pottery

Both- Built homes out of their resources, didn't wear a lot when it's warm, use art to express their region, use environment to make clothes, Both use tools to get their food

Name: _____

Label this map with the four regions:

North west
